

## CONTEXT FREE GRAMMAR ENGINE FOR SPEECH RECOGNITION SYSTEM

### ABSTRACT OF THE DISCLOSURE

The present invention includes a context-  
5 free grammar (CFG) engine which communicates through  
an exposed interface with a speech recognition  
engine. The context-free grammar engine, in one  
illustrative embodiment, handles loading and  
unloading of grammars, as well as maintaining a  
10 desired activation state of the grammars which are  
loaded. Further, the CFG engine represents all  
loaded grammars, and their corresponding activation  
states, as a single grammar to the speech recognition  
engine.
